ABOUT ME

Product-minded Principal Frontend Engineer with 10+ years of experience building and scaling web platforms, PWAs, and hybrid mobile applications. I combine hands-on frontend expertise with strong ownership in architecture, delivery, and hiring. Known for translating business goals into high-impact solutions, improving performance and reliability, and enabling teams to ship faster with confidence.

EXPERIENCE

Principal Frontend Engineer & Engineering Lead

klio

Argentina

Jun 2017 - Present

- Led frontend architecture and engineering practices across the organization, scaling a complex financial platform used for personal and business money management.
- Combined hands-on React and TypeScript development with technical leadership, driving architectural decisions, performance improvements, and long-term maintainability.
- Partnered closely with product and backend teams to translate business requirements into scalable, high-impact solutions.
- Built and mentored frontend teams, contributed to hiring, and established standards that enabled faster and more reliable delivery.

Software Developer Engineer

intive

Argentina

May 2016 - Jun 2017

- Contributed to the development of production web applications for international clients, working across the stack with a strong focus on frontend architecture and component-based UIs.
- Built and maintained user interfaces using modern JavaScript frameworks, collaborating with distributed teams and backend engineers.
- Participated in agile delivery, emphasizing code quality, performance, and maintainability.

Full Stack Developer

Quadion Technologies

Argentina

Aug 2015 - May 2016

- Developed and maintained full-stack web applications, contributing to frontend, backend, APIs, and database design.
- Worked on production systems for external clients, gaining early experience in scalable application development.
